Question: Comments on course effectiveness		

COMM 1020: Going through things with us as a class helped us be more comfortable with each other. I liked how you got us to work together and let us talk to one another so we aren't so shy around everyone.		
COMM 1020: Participation and understanding of the material was great, yet, a good experience!		
COMM 1020: n/a		
COMM 1020: 1. Assignments and readings need to be more clearly stated and enforced. We rarely discuss the readings. 2. Canvas was a mess. If that is organized from the beginning there would be a lot less confusion		
COMM 1020: Just doing all the different types of speeches helped a lot.		
COMM 1020: Maybe having more short talks worth less points throughout the semester would have helped me.		
COMM 1020: I think the assignments could be better spaced apart. For the first speech we had forever to prepare, while only a short time to prepare for a much longer speech.		
COMM 1020: Getting to know the people in the class before we gave our first speech helped a lot Could have spaced the speeches out a little bit better		
COMM 1020: Brought me out of my comfort zone to learn a lot. The variety of speeches made it interesting and fun.		
COMM 1020: Speaking in front of class Being able to watch others speak. Course material was presented in a very mundane way		
COMM 1020: I really enjoyed watching examples of the speeches we were to perform. It was great to see both positive and negative examples. It was also great to practice speeches with class members before the actual graded speeches.		
COMM 1020: I enjoyed the variety of assignments and speeches in the class. Group work made the subject fun		
COMM 1020: More practice in front of the class		
Question: Comments, suggestions on instructor performance		

COMM 1020: I liked the group things where you group us up and we talk about things sharing ideas and telling each other what's a good idea or a bad idea.		
COMM 1020: The instructor's encouragement for academic success.		
COMM 1020: Answer e-mails quicker		
COMM 1020: n/a		
COMM 1020: 1. Lectures were boring. Speech classes were great, but when giving lectures jazz up your powerpoint or engage with the class 2. I thought you did a wonderful job making everyone participate and feel comfortable.		
COMM 1020: Assignments and things were a little confusing on when they were due. Things got switched around and canceled and then ended up being turned in later without an announcement so a lot of people's grades were affected by that. It just needs a little more clear concise organization in the syllabus that is followed.		
COMM 1020: The inclass examples were excellent and the assignments were helpful.		
COMM 1020: Knew her material well and presented material effectively Technology problems were a little bit frustrating, but that couldn't have been helped		
COMM 1020: She got us brainstorming ideas in class and used class time wisely. Her teaching style was beneficial by providing variety in content.		
COMM 1020: I thought the instructor did a great job of interacting with the students and getting to know them personally, it made the class a safe environment to speak in. Sometimes the lectures seemed a little scattered, however, I believe that was, at least in part, due to a lack of student participation and work.		
COMM 1020: The instructor was very approachable. The instructor worked very hard to make sure we understood expectations. At times it seemed the instructor was not prepared for class.		
COMM 1020: Julie is a really nice teacher. She is patient and friendly. She helped me to develop my passion and confidence for this course.
